SERVICES

MOBILITY SOLUTIONS

We help build mobile applications that improve productivity,reduce operational cost, win new customers and help stay ahead of competition. Here are some of the services we offer,
- Mobility Solutions Consulting
- Mobile Application Development and Maintenance
- Mobile Application Testing

PRODUCT DEVELOPMENT

We partner with ISVs to provide them full cycle of support from product architecture, design and development to testing, training, maintenance and support. We also offer the following services,
- Product Enhancement and Upgradation
- Product Migration
- Product Maintenance

INDEPENDENT TESTING

Our Independent Testing services ensures customers cut cost, speed up testing, improve quality and most importantly release precious in-house resources for critical tasks. We offer,
- QA Process Assessment and Test Consulting
- Test Program and Governance Management
- Managed Testing Services - Functional, Usability, Compliance, UI/UX, Security, Performance Testing and Test Automation
- Mobile App Testing

CAPTIVE ODC

We help clients build Captive ODCs in a Build-Operate-Transfer model which enables companies to rapidly start offshore operations and later transfer the ODC as their own subsidiary.
