HEALTHCARE/ PHARMA

One of the foremost challenges for the Healthcare industry is to constantly innovate by employing latest technologies like mobile, cloud and big data to respond to market and regulatory changes while ensuring they adhere to latest healthcare standards.

Pronto Software Solutions has been focused in the area of healthcare and pharma with long-term associations with companies to help them architect, design, build, test and support enterprise healthcare applications. We have experience supporting legacy systems, Microsoft Technologies (.Net), Java/J2EE, Web APIs, HTML5 and mobile app development (Android & iOS).

APPLICATION DEVELOPMENT

We architect and build new applications (from requirement gathering, UI/UX design, development, and testing). We are focused in developing healthcare applications, some of our latest application include;

- Mobile applications
- Cloud applications
- BI/analytics solutions
- Prescription Cost Management applications.

PRODUCT SUPPORT/ MAINTENANCE

Post development we support and maintain these applications, including those on legacy technologies. We have tailored our support and maintenance services to -

- Support legacy applications for healthcare IT vendors as they migrate customers to new platforms
- Transition of existing applications for Long Term Care centres and Special Nursing Units onto new application roll out.

QUALITY ASSURANCE

We ensure the products developed undergo end-to-end testing and validation. Some of the testing disciplines we employ include;

- Functional testing
- Platform testing (incl. mobile)
- Security testing
- Performance/Scalability testing
- Usability testing.

LATEST APPLICATIONS DEVELOPED

APPITY

Is a 'Relevant App Discovery and App Review' platform for all medical related apps, built for the iOS platform. Pronto Software Solutions was involved in UI/UX design, development, testing and deployment of the app. This was built for a US based client.

MR PHARMACY

Is a Iowa based client, we were involved in development, testing and deployment of their pharmacy app - RightScan. The app was built for the iOS platform, it facilitates transmission of prescription refill from a healthcare facility to the pharmacy.

PCM

Is a US healthcare company that works with LTC health centers to proactively monitor and control overall prescription drug and OTC costs. We helped them in developing a web-based cost management application that is HIPAA compliant, secure with single log-on and integrates and operates with existing pharmacies & programs.

> "Pronto has taken our projects from concept, to feasibility, alpha, beta and ultimately to a production quality... Pronto is a true development partner... a company you can definitely count on!"
